Welcome to your AdabStars Board

Your family's wall screen for daily tasks, prayer times and the athan, duas and Qur'an. Setup takes about five minutes.

بِسْمِ اللَّهِ

First: take the wall plate off. The power socket is behind it. Lay the Board face down, unscrew the **2 small screws on the side** and slide the plate off. Keep the screws.

1 Plug in and connect

1. Plug the cable into the Board, then the outlet. Wall mount: the plate goes on the wall first. Stand: refit the plate and its 2 screws.
2. Pick your **language**, then join your home **Wi-Fi**.

> **If it asks for a screen lock PIN or pattern, tap Skip.** With a lock, the Board waits on the lock screen after every power blink, and the athan can't play.

2 Sign in and update

1. Sign in with your family's AdabStars account. New to AdabStars? Create one at **app.adabstars.com**.
2. The Board stays signed in, even after a restart.
3. When the Board offers an **Update**, tap it. Updates add features and fixes and keep your settings.

3 Set your prayer times

Open the Parent Console: tap the **gear** on the Board, or press and hold the clock.

- **Settings → Prayer & Athan**: your location, calculation method, Asr, and which athan to play.
- **Settings → This Board**: athan volume and speakers for this tablet.
- Want the Parent Console locked? Add a **Parent PIN** in **Account & Family**.

4 Add your kids and tasks

- **Kids**: add each child with an avatar.
- **Tasks**: pick daily tasks for morning, afternoon, evening and bedtime.
- **Rewards**: what stars can be spent on.
- Approve tasks from anywhere with the **AdabStars iPhone app**: scan the App Store code at the bottom of this page. Android: open **app.adabstars.com/parent** in Chrome and add it to your home screen.

5 Make it yours

Board Light. The glow around the screen. Pick a color, or choose **Follows prayer times** in **This Board → Board Light**:

Before prayer · Prayer time · Night

Duas & Learning. Kids tap **Duas & Learning** on the Board to listen to duas, surahs and the 99 Names.

Look and screensaver. Themes, screensaver style, widgets and Surah al-Kahf on Fridays are in **Settings → Family Board** and **Prayer & Athan**.

Hifdh. For Qur'an memorization: **hifdh.adabstars.com** on your phone, or **Hifdh** in the Parent Console menu.

6 Good to know

- After a power cut, the Board restarts and opens on its own.
- The athan still plays if the internet drops.
- Settings or Hifdh left untouched return to the Board after a few minutes. Change it in **Family Board → Return to the board when idle**.
- Can't find a setting? Use **Search settings** at the top of the Parent Console.
- Want a walkthrough? **Settings → Help → Guided tour**.
- Kids' tour: tap **Show me how** on Duas & Learning.

Need help or have an idea? Tap **Feedback** in the app, or email **support@adabstars.com**.
Something not working? **Settings → Help → Send diagnostics** and share the support code with us.
